Endorsement of High Performance Building Legislation

AIA Denver hereby endorses pending legislation before the Colorado Senate and House of Representatives requiring, subsequent to September 1, 2005, State-owned facilities of 5,000 square feet or more to be designed and constructed in a manner to obtain LEED certification from the United States Green Building Council. AIA Denver further encourages the sponsors of this bill (Gordon and Madden) and/or their designees to work with representatives of AIA Colorado to adjust the final language of the proposed legislation to offer further clarification with respect to the intent and interpretation of the proposed legislation.

On behalf of the AIA Denver Board of Directors,

Martha Bennett, AIA
President

Brit Probst, AIA
President-Elect

Michael Hicks, AIA
Past President
